Customer Reviews

Fantasy Fairy Tales was not what I was expecting

The basics: Low quality images - despite other authors providing high quality images in Kindle books, this author chooses to use low quality images

E-mail addy required - to actually color the images you have to visit a third party website, give your e-mail addy, and download the images

My thoughts - Seems like a sneaky way to collect e-mail addy's. It's not that difficult to format a Kindle book with high quality images

Theme - fairy tales. Instead of using the generic versions of the fairy tales, the Disney versions are used

Disney characters - the book includes the following Disney characters: Lumiere, Mrs. Potts, Chip, Flit, Meeko, Grandmother Willow, and Maleficent

My thoughts - I doubt the author isn't paying Disney royalties to use their characters, nor is Disney mentioned in the copyright page

Designs - detailed and whimsical. Some of the characters faces are weird and make them look strange. Rapunzel's eyes are the worst

Format: Cover - 1 page. Brightly colored image of the coloring page featuring The Little Mermaid

Title page - 1 page. Book title, book tagline, and the author's name

Copyright page - 1 page. While they might be Nina Baker's images, some of the characters are licensed by Disney

Attention page - 1 page. Notice about low quality images and instructions on how to get high quality images. No mention of providing e-mail addy

Sample page - 1 page. Features 3 mini sample pictures: Puss In Boots, Little Red Riding Hood, and Rapunzel

Thank you page - 1 page. A note thanking you for downloading the high quality images and a link to the website with the images

Advertisement - 1 page. Advertisement for Favoreads

Foreward - 1 page.
