Customer Reviews

Beware! This is pretty much note for note what the Canadian Brass play! It doesn't sound very much like the Beatles originals you're probably looking for.

I'm a long-time tuba player and I have my fair share of tuba books. I was disappointed by this book. If you're looking for a good book of sheet music for tuba, I'd go with the "Essential Elements" series.

WARNING - this book is not for amateur groups! I play with an above average adult group (20+ years with our instruments) and we have found most of this book to be unplayable. If your group is really, really good then this book could be fun.
