## Customer Reviews

This is a nice little book and I'll use it with my students. It goes up above the staff and has too many long phrases to really be easy. When I read through it I suspected this book was not written by a horn player. If you search on the author's name you'll find he has written books on guitar and ukelele. Is it worth 10 bucks with free shipping? Eh.

This book is perfect for dedicated beginners in the french horn! It has some songs that you will most definitely recognize like Vivaldi's Spring. You feel like you accomplish something when playing most songs from the book but be warned. You need to be pretty skilled so about a year of practice or if you practice a lot then at minimum one-half year.

French horn beginner solo book. For a early beginner. It is never to early to start solo training. Keeps your students interested! Good Book but it is for early beginners!
