Customer Reviews

A great piece of work for those who are starting and for those who are already all hands on crowdfunding their projects. Personally, I really liked the structure and the way each tip was explained. Also, I think all the aspects of crowdfunding were discussed here, which makes this collection of secrets a must read for anyone interested in this topic. I think there is nothing more valuable for ambitious crowdfunders than the real-life advice from those who already succeeded. Cool stuff! Thank you :)

I'm now more confident than ever in launching my campaign that's more personal than anything. This book was not 100% what I was looking for before buying since I'll be using GoFundMe BUT it no doubt gave me some valuable advice that I'll be using. And it spurred ideas for perks to offer donators. BUT, each secret, well, 80%+ of them could have gone more in depth by giving examples or something. Is it worth the \$2.99 I think I paid? It's worth way more.

Wasting a lot of time on hours and hours non-stop research on Internet wouldn't give me that much detailed and comprehensive information as this e-book did! "57 secrets of crowdfunding" saved my precious time and energy. It literally gave answers to all of my questions and gave me a lot of new ideas that never crossed my mind. I definitely will recommend it to everyone who wants to create a successful crowdfunding campaign!

I loved this book! Fully packed with all of the practical toolset required for a successful campaign, concise and ultimately to the point. Covers everything related to planning and preparation prior to launching, which is undoubtedly the most important step ensuring the success. If you're going to launch a crowdfunding campaign, this is most definitely the kind of book you'd get.

The book is a great source to ones who are completely beginners in crowdfunding sphere. Very easy read and great for anyone who considers crowdfunding. I'm going to use all the great tips here for my crowdfunding campaign on Kickstarter. I highly recommend this e-book!!

Great book! I would definitely recommend this book to those who are considering crowdfunding, are actually doing it, or already are established experts in this area. The book provides practical and easy-to-understand steps for a successful crowdfunding.

I like the book very much. Awesome Tips that you can use not only for crowd-funding strategy, but

in other spheres too. Everybody must use these instructions for online promotion of their project or other products.

If you are considering launching a crowdfunding campaign, this book is really essential. A crowdfunding campaign is a huge project and the author outlines the entire process for the reader. He also sent me follow-up information (including an updated compact PDF on crowdfunding) for free. I would definitely recommend this book for anyone considering launching a crowdfunding campaign.
