Tiffany Favrite Art Glass (Schiffer Book For Collectors)

Synopsis

Louis Comfort Tiffany's blown art glass, made from 1891 to 1928, embodies the artist's superior workmanship and satisfied his dream to introduce objects of both usefulness and beauty into the average household. These lovely objects, which he named Favrite and made in his New York studio, display Tiffany's reverence for antique glass and include the colored, gold iridescent, blue iridescent, and opalescent forms featured in this book. Over 240 color photographs of objects from many public and private collections, a very interesting text, and meticulously composed descriptions display Tiffany's intriguing art glass together for the first time in book form. Comments about their rarity accompany the descriptions.

Customer Reviews

This is both a book for collectors, and a "coffee table" beauty. The photos are superb, the items selected are the "best of the best", and the narrative is well-written. Unfortunately, those items missing from the book are the Favrite tiles and small pieces--jewelry, scarabs; these are pieces that many collectors can afford and are still available.

The beautiful photos and well written commentary make this book the finest on the subject available. Detailed descriptions along with superior photo quality make this a must for new collectors and experts alike.

I find this book visually exciting, and definitely an addition to the collectible world in matters pertaining to the "Mystic" and "Magic" of the maveric artist "Louis Comfort Tiffany". If you own any Tiffany Favrile Glass this is one of the must have books.
