## Synopsis

Seoafin "Finnie" Wilde was taught by her parents that every breath was a treasure and to seek every adventure she could find. And she learns this lesson the hard way when they perish in a plane crash. But she never forgets, and when she discovers there is a parallel universe where every person has a twin, she finds a witch who can send her there so she can have the adventure of a lifetime. But upon arrival in the Winter Wonderland of Lunwyn, she realizes she's been played by her twin and finds herself walking down the aisle to be wed to The Drakkar. Thrown into inauspicious circumstances, with years of practice, Finnie bests the challenges and digs into her adventure. But as Frey Drakkar discovers the woman who is his new wife is not Princess Sjofn, a woman he dislikes, but instead his Finnie, a free spirit with a thirst for adventure just like him, without her knowledge he orders his new bride bound to his frozen world, everlasting. But at the same time, Frey plunges Finnie into a web of political intrigue that includes assassination plots, poison, magic, mystery and...dragons.

## Customer Reviews

At around 500 pages for a price-tag of only 99 cents, I think this book was a pretty good casual read. It's nothing super special or amazing, but I read it over the course of two days and saw it had some merit. The story isn't bad and the baseline of the characters isn't bad; in fact, I think I liked the plot and setting a lot. It was entertaining enough to hold my attention. I like fantasy and I like romance, so this was a worthwhile casual read. The editing was pretty good, I didn't notice many mistakes if any, and I think the author is pretty good at formulating a plot. This book had a lot of

story; much more than I normally expect from a book filled with several erotica scenes. But I'll be totally honest I knocked off two stars for a few reasons. Firstly there's some sexism and not-okay things happening. The book sort of shirks Frey keeping Finnie trapped in the other-world without her knowledge and consent and then tampering with her birth control as "well, cultures are different and we can't judge them as right or wrong!" which is absolute nonsense. I don't care what culture you're waving in my face, any that seeks to limit, restrict, or otherwise deny autonomy and liberty solely on the basis of gender identity or sex is awful and wrong and not justified. Then there's also "men can have affairs after marriage but not women because they gotta be moms and not have the paternity called into question" like please, spare me this outdated sexism that tries to justify why women shouldn't have affairs because they can get pregnant as if a man impregnating a dozen girls isn't irresponsible and bad. At these moments I was just rolling my eyes and groaning.
