MINECRAFT: Minecraft Secrets Handbook Traps Edition (Unofficial Minecraft Traps Guide)

(Ultimate Minecraft Secrets Handbooks) from Minecrafter Kid
Kindle Edition Free download, List

price \$0.99 Publication Date: March 31, 2015 For the price this book is listed at I think this is one of the best guides to Minecraft traps. The author has made good use of illustrations to support their directions and design. I'm not a big fan of traps, so I'm not trying these out. They look like they will do as advertised so go blow someone up and have fun doing it. 5 stars for illustrations with appropriate directions. Note I rarely give 5 stars for a guide, so you know this one is likely pretty good!

Playing Minecraft is one of our 'bonding' time with my little brother and he loved reading this book. He was so surprised that such tactics and tips are possible. The book is well-written, detailed with images and can easily be understood by a younger person. My brother is 9 years old btw. Great job!

Minecraft secrets is a very handy book to have no doubt for all wanna be minecraft players and the existing ones. I bought this book for my brother who is ever keen to improve his strategies and wants to scale greater heights in this games. He never gets tired of playing it so I thought why not buy him something he will truly appreciate. And boy, was I surprised he simply loved the book and his gaming technique has improved so much post reading this book. The different ways of building traps makes you an expert on all kinds of traps like explosive, land line and lava traps!

I love a trolling people and this guide really helped & well guided me with that step-by-step. But there's a part missing in the "Popup TNT Trap" chapter and that was that it didn't tell us where to put the sticky piston or even the TNT (Anyway I was hoping somehow you could ask the author to edit that part in or update the book or something like that. Other than that I really enjoyed it and would recommend it to anyone who likes trolling others or just want to get revenge on someone for something they did.

I was going to play these traps on a friend I don't know the results yet but they will be some supreme and can you do another book on traps but with more traps and anyone who reads this prank them on your friend or your brother or sister

1. The picture of where you put stuff for the trap is really small and very hard to picture what it would look like when you build it.
2. The directions are really hard to follow.
3. All of the words in it would take up about only 30 pages because there is one step per page and only takes up about half of the page.
